DIVISION AND MULTIPLICATION FACTS SHEET 1

Hand icon

Multiplication and division are inverse operations of each other. Change each division fact to two different multiplication facts. Example: 4 x 5 = 20 means that 20 ÷ 4 = 5 and 20 ÷ 5 = 4.

1)	4 x 3 = 12	means	12 ÷ 4 = 3	and	12 ÷ 3 = 4
2)	5 x 2 = 10	means		and	
3)	6 x 3 = 18	means		and	
4)	10 x 4 = 40	means		and	
5)	3 x 5 = 15	means		and	
6)	8 x 2 = 16	means		and	
7)	7 x 5 = 35	means		and	
8)	6 x 10 = 60	means		and	
9)	5 x 6 = 30	means		and	
10)	3 x 9 = 27	means		and	
11)	4 x 6 = 24	means		and	
12)	8 x 3 = 24	means		and	
13)	2 x 9 = 18	means		and	
14)	4 x 9 = 36	means		and	
15)	6 x 7 = 42	means		and

These work sheets 4 provide practical in division problems that can be tried without an extensive coverage to emphasize the concept and notation of the division instead of the cycles. Some questions involve remaining. Explore all our division work sheets, from simple division acts to a long division of large numbers. Review of mathematics Part 1: Soar in the degree 4Math Review Part 1: Soar in grade 4 in this evaluation of revision, the students will demonstrate their understanding of the mathematical facts, the multiplication of multiple days and the division . Long division is a skill that requires a lot of practical with the spite and paper to dominate. Our long division work sheets 4 cover the long division with divisors of a day and dividends of up to 4 days. Explore all our division work sheets, from simple division acts to a long division of large numbers. There is a grated preview for all division work sheets. You can select different variables to customize these division work sheets for your needs. Division work sheets are created randomly and will never be repeated, so it has an endless supply of quality division sheets to use in the classroom or at home. Our division work sheets are free, very flexible and very flexible. These division work sheets are a great resource for children in kindergarten, 1st grade, second grade, third grade, 4th grade and fifth grade. Click here to obtain a detailed description of all division work sheets. Click on the image that will take to that division work sheet. DIVISIBILITY RULES Brochure work sheet This worksheet of the divisibility rules will generate a brochure on the rules of a number in 2, 3, 4, 5, 6 and 9. This worksheet of the divisibility rules will help the children to learn the rules. Divisibility test division sheets These division work sheets generate a number matrix so that children determine if they are divisible by 2, 3, 4, 5, 6 and 9. These work sheets of division division be configured with 2, 3 or 4 digit numbers. It can also allow numbers that do not meet any of the divisibility tests to increase the difficulty for children. A divisibility rule worksheet will be created to help children learn the rules. Divisibility: Choose dividing worksheets This division worksheet generates a number matrix for children to determine whether certain numbers are divisible by the divisors they choose. Problems can be configured with 2, 3 or 4 digit numbers. It can also allow you to choose the divisors to test. Single or multiple digit division worksheets Horizontal format these individual or multiple digit division worksheets are configured in a horizontal problem format. Numbers for each divider and quotient can be individually varied to generate different sets of division worksheets. These division worksheets will have no remains or fractions. These division worksheets can be configured to design problems using the divisional sign, Slash (/) or as a long division format. You can select between 20 and 40 problems for these division worksheets. Long division worksheets Horizontal format These long division worksheets The number of digits for dividers and quotients can vary from 1 to 3. You can select if long division problems have no remains, remains or mixed. These lengths of response of the division worksheet can be shown with a remainder or as a fraction. These long division worksheets may have 9 or 12 problems per worksheet. Short division worksheets 1 Division - Horizontal format These short division worksheets are configured in a horizontal problem format. Numbers for dividers can res res nedeup atroc n'Aisivid ed sameborp sol. n@Aibmat odnedivid le ne sotigAd sol ratse edeup omAc ranoiccoles edeup n@AibmaT .n'Aisivid ed ojabart ed sajoj satse arap sotigAd 3 a 1 ed rairav edeup setneicoc sol ne sotigAd ed oremAn IE .n'Aisivid ed ojabart ed sajoj satse arap 9 a 2 ed No remains, all the remains or mixed remains. The answer key can be displayed with a rest or as a fraction. You can select between 20 or 24 problems for these division worksheets. Decimal Long Division worksheets Horizontal format These decimal division worksheets allow the number of digits in the dividers to vary from 1 to 3. You can select the number of decimals in the dividend for problems. These decimal division worksheets produce 9 problems per worksheet. Decimal dividing worksheets Horizontal Format This worksheet of the decimal division The number of digits for dividers can vary between 2 and 3 and the number of decimals in the divisor can vary between 1 and 2. The worksheet of the division of the divisor decimal produces 9 problems per worksheets. 3-digit decimal division worksheets Horizontal format These division worksheets produce problems in which a decimal number of 3 digits should be divided by a single digit number. You can select between 12, 15, 18, 21, 24 or 30 problems for these division worksheets. Joint quotient division work sheets These division worksheets will produce problems with mixed formats for the quotient, but keeping the divider and dividend as integers. You can select integers, decimal, two decimals or a mixture of all kinds of problems. The division worksheet will produce 9 problems per worksheet. Division Drills Worksheets Response Range (1 - 12) These division exercise worksheets contain all single digit division problems for an operation on a page. A student should be able to solve the problems of division in these division worksheets correctly in the allowed time. Tables of Division Tableschronometre drilling work These division worksheets are to test the knowledge of students on the Times tables, but from the point of view of the division. Selected time tables will be used as dividers and quotients in problems. A student should beTo solve the 60 problems correctly in 3 minutes. You can select which timetable to use. Worksheets of division of missing numbers Horizontal format These division worksheets are a good introduction to algebra concepts. You can select several types of characters to replace missing numbers of division problems in division worksheets. The format of the division worksheets is horizontal and the answers vary from 0 to 99. These division worksheets can be configured to design the division problems using the split sign or a bar format (/). You can select between 12 and 30 problems for these division worksheets. Negative Numbers Division Worksheets Horizontal Format These division worksheets can be configured for dividers and quotients in the range of -12 to +12. The format of the division worksheets is horizontal. You can select between 20 and 40 problems for these division worksheets. Writing division problems in different formats Division work sheets These division work sheets will produce sets of problems to teach children the three common division formats. These division worksheets will generate 8 problems in the long division, horizontal and fractional format. Horizontal and long division worksheets These division worksheets will produce sets of problems with horizontal and long division formats. Numbers for dividers can vary from 2 to 9. The number of digits in the quotients may vary from 1 to 2 digits. You can also select how the digits can be in the dividend as well. You can select between 10 or 12 problems for each division worksheets. Division Data Tables HOMA The division data table tablecolorful and a great resource to teach children their division data tables. A complete set of partition data tables printed for 1 to 12.
